

MCKEAN ROAD SPORTS COMPLEX EIR

TABLE OF CONTENTS

VOLUME I

Preface.....	i
Executive Summary	iv
A. Summary of the Proposed Project.....	iv
B. Summary of Impacts and Mitigation Measures.....	iv
C. Evaluation of Alternatives.....	xxiii
D. Areas of Controversy and Issues to be Resolved	xxiv
E. Mitigation Monitoring.....	xxv
I. Description of the Proposed Project.....	1
A. Overview of the Project.....	1
B. Project Location	2
C. Project Description.....	2
D. Project Objectives	12
E. Uses of the EIR	12
F. Consistency With Adopted Plans and Policies.....	13
II. Environmental Setting, Impacts and Mitigation Measures	25
A. Land Use	27
B. Geology, Soils and Seismicity.....	32
C. Hydrology and Water Quality	42
D. Water Supply.....	61
E. Transportation	93
F. Air Quality.....	134
G. Noise	149
H. Biological Resources.....	165
I. Hazards and Hazardous Materials.....	182
J. Aesthetics/Visual Resources	185
K. Public Services, Utilities and Service Systems	192
L. Cultural Resources	199
M. Recreation.....	203
N. Energy	205
O. Mineral Resources	206

P.	Population and Housing	208
III.	Alternatives to the Proposed Project	210
IV.	Cumulative Impacts.....	220
V.	Growth-Inducing Impacts.....	232
VI.	Significant Unavoidable Impacts	234
VII.	Significant Irreversible Environmental Effects	235
VIII.	References Cited and Personal Communications	236
IX.	EIR Authors and Consultants	239

List of Tables:

Table II.C-1	Existing Watershed Characteristics	43
Table II.C-2	Existing Condition Hydrology Summary	45
Table II.C-3	Proposed Watershed Description	50
Table II.C-4	Proposed Watershed Characteristics	50
Table II.C-5	Proposed Conditions Peak Flow Rates.....	51
Table II.C-6	Hydrology Comparison (100-Year Storm)	51
Table II.C-7	Storage Volume	54
Table II.C-8	Capacity Check	55
Table II.D-1	Ground Water Monitoring Results	67
Table II.D-2	Manual Water Level Readings	70
Table II.D-3	Hydraulic Parameters Determined from the Constant Discharge Test.....	72
Table II.D-4	Projected Total Monthly Water Use For Irrigation	83
Table II.D-5	Pumping Rates for the Simulation.....	84
Table II.D-6	Water Budgets for January and July for the Simulation (First Year).....	86
Table II.E-1	LOS & Delay Ranges	95
Table II.E-2	LOS & Density Ranges	101
Table II.E-3	Existing Weekday PM Peak Hour Conditions LOS	101
Table II.E-4	Background Weekday PM Peak Hour Conditions LOS.....	104
Table II.E-5	Proposed Project Weekday Trip Generation	108
Table II.E-6	Project Weekday PM Peak Hour Conditions LOS.....	113
Table II.E-7	Existing Weekend Mid-day Peak Hour Conditions LOS	120
Table II.E-8	Background Weekend Mid-day Peak Hour Conditions LOS.....	122
Table II.E-9	Proposed Project Weekend Trip Generation	123
Table II.E-10	Project Weekend Mid-day Peak Hour Conditions LOS.....	126
Table II.E-11	McKean Road/Harry Road Intersection Traffic Signal Warrant Analysis Summary	127
Table II.E-12	McKean Road/Almaden Road Intersection Traffic Signal Warrant Analysis Summary	128
Table II.E-13	McKean Road/Almaden Road Intersection Turn Pocket Analysis Summary.....	128
Table II.E-14	Year 2007 Without Project Weekend Mid-day Peak Hour Conditions LOS	132

Table II.E-15	Year 2007 With Project Weekend Mid-day Peak Hour Conditions LOS	133
Table II.F-1	National And California Ambient Air Quality Standards	136
Table II.F-2	Local Air Quality Levels.....	138
Table II.F-3	Sensitive Receptors	141
Table II.F-4	BAAQMD Thresholds of Significance for Project Operations.....	142
Table II.F-5	Representative Construction Emissions	143
Table II.F-6	Weekday Project Operational Air Emissions.....	144
Table II.F-7	Weekend Project Operational Air Emissions.....	144
Table II.F-8	Weekday Projected CO Concentrations	147
Table II.F-9	Weekend Projected CO Concentrations in the Project Area.....	148
Table II.G-1	Sound Levels and Human Response	150
Table II.G-2	Land Use Compatibility Noise Guidelines for Community Noise in San Jose.....	153
Table II.G-3	Existing Noise Measurements	154
Table II.G-4	Existing Modeled Weekday Traffic Noise	155
Table II.G-5	Existing Modeled Weekend Traffic Noise.....	156
Table II.G-6	Typical Grading and Construction Equipment Noise	158
Table II.G-7	Modeled Existing Plus Project Weekday Traffic Noise	160
Table II.G-8	Modeled Existing Plus Project Weekend Traffic Noise	161
Table II.G-9	Sport Field Noise Measurements	162
Table III-1	Alternatives Matrix	211

List of Exhibits:

Exhibit I-1	Regional Location Map	3
Exhibit I-2	Vicinity Map	4
Exhibit I-3	APN Map.....	5
Exhibit I-4	Aerial Photo.....	6
Exhibit I-5	Conceptual Site Plan	8
Exhibit I-6	Conceptual Grading Plan.....	9
Exhibit II.A-1	San Jose 2020 General Plan Land Use Map.....	29
Exhibit II.B-1	Geologic Map	33
Exhibit II.B-2	Regional Fault Map	35
Exhibit II.C-1	Hydrology Map-Existing Conditions	44
Exhibit II.C-2	Flood Zone Map	47
Exhibit II.C-3	Hydrology Map-Project Conditions	49
Exhibit II.D-1	Aerial Photo of Project Area	64
Exhibit II.D-2	Well Hydrographs for Long-Term Monitoring Wells Z-1 and Z-2.....	66
Exhibit II.D-3	Geologic Cross Section	68
Exhibit II.D-4	Pre-Pumping Water Levels in 0-1 and 0-2	71
Exhibit II.D-5	Depth to Bedrock Map	74
Exhibit II.D-6	Approximate Ground Water Level Elevation.....	76
Exhibit II.D-7	Monthly Rainfall	78
Exhibit II.D-8	Hydrographs For Two Wells in Vicinity of Project Site.....	79
Exhibit II.D-9	Average Daily Stream Flow for Alamitos Creek	80
Exhibit II.D-10	Total Annual Groundwater Extraction From Greater McKean Road Area.....	81
Exhibit II.D-11	Simulation of Maximum Drawdown.....	85

Exhibit II.D-12	Hydrograph Simulation Based On Rainfall (Years 1972-1991)	87
Exhibit II.D-13	Hydrograph For Drought Recharge Scenario With Project Pumping	88
Exhibit II.D-14	Hydrograph For Z-1 For Drought Scenario With No Creek Flow During 4/89 to 9/89 Present Day	90
Exhibit II.D-15	Hydrograph For Z-1 For Drought Scenario With No Creek Flow During 4/89 to 9/89 And Pumping At One Half The Maximum Rates	91
Exhibit II.E-1	Study Intersection Locations	94
Exhibit II.E-2	Existing Study Intersection Geometry	98
Exhibit II.E-3	Existing Weekday PM Peak Hour Volumes	100
Exhibit II.E-4	Background Weekday PM Peak Hour Volumes	103
Exhibit II.E-5	Proposed Project Trip Percent Distribution.....	109
Exhibit II.E-6	Project-Generated Weekday PM Peak Hour Trip Assignment	110
Exhibit II.E-7	Project Conditions Weekday PM Peak Hour Volumes.....	112
Exhibit II.E-8	County Accident Locations	114
Exhibit II.E-9	City Accident Locations	116
Exhibit II.E-10	Existing Weekend Mid-day Peak Hour Volumes	119
Exhibit II.E-11	Background Weekend Mid-day Peak Hour Volumes	121
Exhibit II.E-12	Project Generated Weekend Mid-day Peak Hour Trip Assignment.....	124
Exhibit II.E-13	Project Weekend Mid-day Peak Hour Volumes	125
Exhibit II.E-14	Year 2007 Without Project Weekend Mid-day Peak Hour Volumes.....	130
Exhibit II.E-15	Year 2007 With Project Weekend Mid-day Peak Hour Volumes.....	131
Exhibit II.G-1	Sensitive Receptor Locations	157
Exhibit II.H-1	Habitat Map.....	167
Exhibit II.J-1a	Site Photos.....	187
Exhibit II.J-1b	Site Photos.....	188
Exhibit II.J-1c	Site Photos.....	189
Exhibit II.K-1	Fire Station Locations	195
Exhibit IV-1	Year 2007 Without Project Weekday PM Peak Hour Volumes.....	226
Exhibit IV-2	Year 2007 With Project Weekday PM Peak Hour Volumes.....	229

VOLUME II – Technical Appendices

- APPENDIX A: Notice of Preparation
- APPENDIX B: Geologic Assessment Report
- APPENDIX C: Hydrologic Analysis
- APPENDIX D: Groundwater Report
- APPENDIX E: Traffic Impact Analysis

VOLUME III – Technical Appendices

- APPENDIX F: Air Quality Technical Data
- APPENDIX G: Noise Report
- APPENDIX H: Biological Resources Reports
- APPENDIX I: Phase I Environmental Site Assessment
- APPENDIX J: Memorandum of Understanding and City Council Res. No. 65459
- APPENDIX K: Letter from Ann Draper, Santa Clara County Planning Director
